---

3-year warranty

## CS1500 Self-Sharpening Electric Chainsaw

Oregon's high-power, 2400 watt CS1500 chainsaw is the only corded electric chainsaw on the market with a chain that can sharpen itself. The CS1500 has all the traditional conveniences of an electric saw — instant start with the pull of a trigger, minimal maintenance, low noise and silent between cuts — and takes it one step further by incorporating the built-in PowerSharp® chain sharpening system. With a simple pull of the red PowerSharp lever, you'll take your chain from dull to sharp in as little as 3 seconds so you'll never cut with a dull chain again.

For more information on these and other Oregon products, contact your authorized Oregon distributor, or:
